

La Porte County Solid Waste District 2010/2011 Education Program List

Coming to America

A hands-on and "magnifying" look at worms & what they do for us
"How To" instructions on building a worm composting bin

Greed vs. Need

A different & fun way to identify renewable and non-renewable resources
Are we really "Nice guys"?

Can You Sort It? Yes You Can!

Let's talk recycling and look at the 3R's. Also introduces students to the 4th R!
Recycling relay available upon request

Love Me or Leave Me?

A look at landfills & why we need to conserve
Ends with a sweet treat the children actually make and eat!
(Please check with educator on maximum group size)

Build It and They Will Come

An interactive, fun way to look at how landfills are built and used to protect our
surrounding environment & water
What would we do if the wells truly did run dry?
(Please check with educator on maximum group size and location)

E! The Biggest, Bestest in the Midwest

What are the worldly effects of wanting and getting more of what we want in the
Electronic Age? Who is responsible for what goes where?

****Please note that I alter my teaching techniques to accommodate all age
groups from preschool to adult.
